

SITP – International Trade Fair for Public Works and Construction Machinery

Duration	28 Nov – 2 Dec 2017
Venue	Palais des Expositions, Algiers, Algeria
Exhibitors	302 from 12 countries
Frequency	Annually
Website	www.salontp.com

Review on a successful presentation to the Algerian market

SITP’s visitors seized the opportunity to get an overview about the products and services of 198 national and 104 international exhibitors on a space of 15.712 sqm.

Accompanying conferences were dedicated to road safety and sustainability as well as projects for the improvement of Algeria’s infrastructure like highways, railways, and airports.

The importance of the Algerian market showed itself in the presence of National Pavilions from China, France, Germany, and Italy.

Visitors of the exhibition got to see exhibits from the full range of construction topics, among them: Construction equipment and tools; Drilling, ramming and drawing equipment; Compressors and hydraulic tools; Compacting machinery for road building; Machinery and facilities for concrete / bitumen; Road repair and maintenance; Construction vehicles; Building site facilities; Machinery and installations for the cement, limestone, plaster, sand, clay, gravel and ballast industries; Lifts, elevators and escalators.

Save the date for next SITP: 21 – 25 November 2018
