Review on a successful presentation to the Algerian market

SITP’s visitors seized the opportunity to get an overview about the products and services of 300 national and international exhibitors on a space of 140,000 sqm.

The importance of the Algerian market showed itself in the presence of National Pavilions from China, France, Germany, and Italy.

Visitors of the exhibition got to see exhibits from the full range of construction topics, among them: Construction equipment and tools; Drilling, ramming and drawing equipment; Compressors and hydraulic tools; Compacting machinery for road building; Machinery and facilities for concrete / bitumen; Road repair and maintenance; Construction vehicles; Building site facilities; Machinery and installations for the cement, limestone, plaster, sand, clay, gravel and ballast industries; Lifts, elevators and escalators.

The 18th edition of SITP will take place in March 2021
