Review on a successful presentation to the Algerian market

SITP’s visitors seized the opportunity to get an overview about the products and services of 233 national and 74 international exhibitors on a space of 14,585 sqm.

The importance of the Algerian market showed itself in the presence of National Pavilions from China, France, Germany, and Italy.

Visitors of the exhibition got to see exhibits from the full range of construction topics, among them: Construction equipment and tools; Drilling, ramming and drawing equipment; Compressors and hydraulic tools; Compacting machinery for road building; Machinery and facilities for concrete / bitumen; Road repair and maintenance; Construction vehicles; Building site facilities; Machinery and installations for the cement, limestone, plaster, sand, clay, gravel and ballast industries; Lifts, elevators and escalators.

The 17th edition of SITP will take place in autumn 2019
